

● URGENT CARE, ON DEMAND

Open the app.
Speak to a *doctor*.

No appointment. No waiting room. Tell us what's wrong and talk to a GP in minutes.

Talk to a GP now [see live price](#)

GMC-registered GPs. Prescriptions included.

● LIVE RIGHT NOW

UPDATED 09:40

£82 PRIORITY · 8-14 MIN

£45 STANDARD · 30-55 MIN

DEMAND

Busier than usual

6 GPs

seeing patients right now. Price moves with real-time demand – always shown in full before you book.

● HOW IT WORKS

As simple as it sounds.

01

Say what's wrong

Two minutes, guided.

02

Get matched

Price shown upfront, locked when you book.

03

Talk now

Video call. Prescription if you need one.

● PRICING

Live pricing.

Price moves with demand, like a fare. Always shown in full before you book.
Never changes after.

Standard

£45

Current price · usually 30–55 min

For symptoms that are bothering you but can hold until later today.

- 15–20 minute video consultation
- Prescriptions and fit notes included
- Written summary sent after the call

Priority

£82

Current price · busier than usual · usually 8–14 min

For when today genuinely can't wait — and you'd rather not sit in a queue to find out.

- Next available GMC-registered GP
- Prescriptions, fit notes and referrals included
- Written summary sent after the call

Full price shown before you book, locked the second you confirm — nothing added after.

REGULATION

CQC-registered clinical service.

DOCTORS

GMC-registered, identity-verified GPs.

PRIVACY

Encrypted video. Nothing recorded without asking.

PRICING

Moves with demand, shown in full, locked when you pay.
